Manjunathkorisetru

## Profile

- Graduated Master's degree in Computer Science from Universität Paderborn
- 2 years of Work Experience as a Software Developer
- 4 years of Work Experience as SAP Tech consultant
- Proficient in developing web applications with React.
- Experienced in all phases of the Agile Process Model in a team oriented work environment.

## Skills

Frontend *TypeScript, JavaScript, Java, HTML5, CSS3, React, React Native, Vue, Redux, Tailwind CSS, Material-UI*

Backend *Node.js, Express.js*

Databases *MongoDB, MySQL*

API *RESTful APIs, JSON*

Soft Skills *Problem-Solving, Analytical Thinking, Team Collaboration, Effective Communication*

Testing *Cypress, Jest, React Testing Library*

## Experience

07.2022 - **Frontend Developer**, *Pickshare GmbH*, Dortmund

- 09.2023
- I have successfully created and implemented an advanced Lastmile OS dashboard with robust filtering features, empowering users to efficiently manage and analyze ecosystem data.
  - I have successfully integrated the shipment tracking feature into the frontend, enabling seamless package tracking within our system and utilizing Google Maps for location visualization.
  - I have successfully developed and integrated a reporting feature into the lastmile OS dashboard, which dynamically generates charts using data visualization libraries to provide users with a comprehensive statistical analysis of package deliveries over time, including bar graphs, line charts, and multi-column charts for insights into delivery performance trends.
  - I have created test cases for both existing and new frontend components, performing unit tests with React Testing Library to ensure individual functionality, and conducted end-to-end tests using Cypress to validate the overall application functionality and user experience.

- 05.2022 - **Frontend Developer**, *Pickshare GmbH*, Werkstudent, Dortmund
- 07.2022
- I have successfully integrated the What3words feature into our dashboard, enabling users to seamlessly utilize precise location identification and enhancing the overall functionality and user experience.
  - In the frontend of the Lastmile OS, I successfully refactored existing components to significantly improve efficiency, resulting in enhanced performance and a more streamlined user experience.
- 07.2021 - **Frontend Developer**, *Mykori Technologies UG*, Werkstudent, Bielefeld
- 03.2022
- Design of responsive UX and UI
  - Architecture planning of a web application with React and mobile application with React Native
  - Programming in Javascript, Typescript, ES6, CSS and HTML
- 07.2016 - **Service Delivery Specialist**, *IBM India Private Limited*, Bengaluru, India
- 03.2019
- SAP NetWeaver 7.0 and MSSQL installation
  - System Refresh of Sandbox system
  - Solution Manager configuration and EWA Alert setup
- 07.2015 - **SAP Basis Administrator**, *Symbiosys Technologies*, Vishakapatnam, India
- 07.2016
- Daily monitoring of SAP systems
  - Performed kernel upgrade
- 01.2015 - **Intern (Trained in SAP Basis Technology to support for AT&T hosted customers)**, *AT&T Global Business Services India Private Limited*, Bengaluru, India
- 07.2015
- Configured Central User Administration and SAP Note Implementations

---

## Education

- 04.2019 - **Master of Science, Computer Science (Specialized in Software Engineering)**,  
02.2022 *Universität Paderborn*, Paderborn
- 09.2011 - **Bachelor of Engineering, Computer Science**, *Visvesvaraya Technological University*, India  
09.2015

---

## Master thesis

- 08.2021 - **FPGA-Database: Web Application for Interactive Visualization of FPGA**  
02.2022 **Device Specifications**
- I have developed a robust FPGA device catalog web app, enabling user interactions for comparison, data visualization, and specification retrieval. Leveraging MongoDB, Node.js, Express.js, Mongoose on the backend, and React.js on the frontend, I ensured a seamless and dynamic user experience

---

## Languages

- English Bilingual Proficiency
- German Elementary Proficiency
- Kannada Native Speaker

---

## Certifications

- Meta Advanced React, React Basics, Programming with JavaScript, HTML and CSS in depth, Version Control, Introduction to Front-End Development
